# Parents Together

The goal of this group is to support parents in recovery while strengthening their parenting skills.

The group will utilize a skill building program for seventeen weeks of curriculum. A recovery support group will follow the parents skills class each week.

The goals of the curriculum include enhancing relationships between parents and children, recovery support, enhancing communication skills, and increasing self care.

Participants of the group will include parents and partners of parenting adults with substance use problems including those in treatment and recovery.
