Families Learning Together is a weekly program at The Family Place in which young parents learn job, parenting, and life skills while setting and meeting educational and employment goals.

Our goal is to enhance the ability of young parents to parent their children well by increasing job readiness, education, life skills, parenting skills and knowledge of child development.

During a typical year of FLT, in which 13 participants were enrolled in the program:

- 4 earned their high school diploma or GED
- 1 began her first year of college
- 4 found employment
- 6 occupied their own apartments
- 6 earned their drivers' licenses
- 4 acquired their own transportation

Our 4 STARS Child Care Center provides a nurturing, developmentally stimulating space for children while also serving as an intensive learning lab where parents are taught the fundamentals of child development and positive child rearing practices.

We offer an expansive list of services to enable young parents to achieve sustainable independence:

- On-site work experience
- Academic tutoring toward a high school diploma or equivalent
- Intensive counseling on-site and at home
- Parenting education
- Support groups
- Crisis intervention
- Incentives for participation
- Driver's education
- Nutrition education
- Transportation to the program and events
- On-site child care for children ages birth to three years old

Most of the young people in FLT live in poverty. Many of them come from backgrounds in which they have experienced physical or sexual abuse, neglect, domestic violence, or parental substance abuse. All of them are working to create better futures for themselves and their children.

Participants learn the crucial skill of cooking nutritiously for themselves and their children in our newly renovated commercial kitchen.

Participants learn both the craft of jewelry making and commitment to employment at JewelryOs®, our on-site jewelry studio. Proceeds from JewelryOs® support Families Learning Together.

"We just want to say thank you to everyone at The Family Place for having such an incredible impact on our lives! We wouldn't be who we are or where we are in life without you!" - A Families Learning Together participant speaking about herself and her child.
